

+ Native of Channel Islands

## Rose Mallow

*Lavatera assurgentiflora*

- Shrub: large, thick woody branches
- Flowers: pink, 5 petals
- Leaves: 5 tipped and broad, uneven ridges on sides, small bumps unevenly spread

- Non-Native

## Vetch

*Vicia spp.*

- Ground creeper
- Flowers: purple, yellow, or white
- Leaves: two leaves meet on stems, curly tendrils at end of stems
- Makes little "pea" pods
- No native legumes in Butterfly Garden

+ Native

## Purple Needle Grass

*Nassella pulchra*

- Grass, 1-4 ft. tall
- Husk: two long awns, feels smooth when you run fingers backwards on florets. Purple color before seeding
- Stems grow from a central clump
- CA state grass

- Non-Native

## Wild Oats

*Avena fatua*

- Grass, 1-4 ft. tall
- Florets contain two dark awns, green before seeding, with pale gold/brown fuzzy seed inside when mature
