

Certificate of Advanced Accounting Proficiency

2007/2008 Courses and Schedule (Academic Year Version)

Courses Offered:

180 (5 units) Accounting for Business Decisions

Financial and Managerial Accounting. Introduces concepts and principles underlying external financial statements and provides an overview of how managers use internal accounting information to make sound business decisions. This introductory class includes a self-study module which provides insight into the mechanics behind the preparation of financial statements, including the accounting model and accrual versus cash accounting.

181 (5 units) Intermediate Financial Accounting I

In-depth study of the concepts underlying external financial reporting along with expanded coverage of the basic financial statements. Detailed analysis of the measurement and reporting of current assets, operational assets, and investments, including the treatment of related revenues and expenses.

182 (5 units) Intermediate Financial Accounting II

Intensive analysis of generally accepted accounting principles as applied to accounting for liabilities, stockholders' equity, and the statement of cash flows. Covers accounting for income taxes, pensions, leases, and the reporting of corporate earnings.

183 (5 units) Auditing

Basic assurance concepts such as risk, control, and evidence and important relationships among these concepts. Provides an understanding of the conceptual assurance framework underlying financial statement audits.

184 (6 units) Advanced Accounting

This course covers a broad spectrum of advanced financial reporting topics including partnership accounting from organization to liquidation, accounting for business combinations and the consolidation of parent and subsidiary companies' financial statements, and accounting for not-for-profit and governmental entities.

185 (5 units) Cost Management and Strategy

Analysis of cost accounting with a strategic emphasis. Selected topics include process costing, activity-based costing, variance analysis, joint cost allocations, and the Theory of Constraints.

186 (5 units) Tax Aspects of Business Decisions

Analysis of various tax policies and their effect on business and personal tax planning. Includes discussion of various taxes (income, payroll, state and local, international) that have decision-making implications. Addresses issues of importance for successful tax planning and tax minimization for individuals and businesses.
