

## Catholic School Leadership Program

### **Certificate Program in Catholic School Leadership**

This 30-unit certificate program prepares Catholic School teachers for leadership roles within their schools. Designed for credentialed teachers who are working in a Catholic K-12 school, this program addresses the various aspects of school leadership. It meets the needs of teachers preparing to be faculty leaders who wish to further the mission of their school in their current teaching position, as well as those who plan to work toward administrative positions within Catholic school settings. Instructors include University faculty and administrators in the Catholic school community. The 10 courses included in this Certificate program qualify toward the California Preliminary Administrative Services Credential (K-12), and the Master of Arts in Educational Administration.

### **Course Requirements:**

EDUC 360. Leadership in Education or EDUC 390 The Catholic School
