

## TABLE OF CONTENTS

	<u>Page</u>
Abstract.....	iv
Chapter 1 - Introduction.....	1
1.1 RACE.....	2
1.2 Project Goal.....	2
1.3 Contributions.....	2
Chapter 2 - Overall System Integration.....	5
2.1 System Overview.....	5
2.2 Team Structure.....	6
2.3 Design Process.....	7
Chapter 3 - Antenna.....	8
3.1 Mechanical Design Process.....	8
3.2 Design and Additional Details.....	20
3.3 Critical Analysis.....	25
Chapter 4 - Electronics.....	29
Chapter 5 - Software.....	34
5.1 LabVIEW.....	34
5.2 Satellite Control.....	37
Chapter 6 - User Management and Station Scheduling.....	43
6.1 Website.....	43
6.2 Database.....	53

Chapter 7 - Experimentation .....	56
7.1 Mechanical Experimental Protocol.....	56
7.2 Mechanical Results .....	56
7.3 Ham Radio Testing Results .....	59
Chapter 8 - Conclusion .....	60
8.1 Summary .....	60
8.2 Future Uses .....	60
8.3 Lessons Learned.....	64
Appendix A: Project Specifications .....	65
Appendix B: Comprehensive Ground Station Expenses .....	68
Appendix C: Commercialization Plan .....	70
Appendix D: Funding Request Letters .....	78
Appendix E: Timeline.....	85
Appendix F: Finite Element Analysis.....	87
Appendix G: Source Code .....	92
Appendix H: Cable Construction.....	101
Appendix I: Manufacturer Specification.....	102
