

2009 Grants Awarded (Winter)			
Last	First	Department	Project Title
Adalsteinsson	Thorsteinn	Chemistry	"Solubility of photosensitive organometallic molecules in sub-femtoliter polymer-encased oil droplets"
Figueira	Silvia	Computer Engineering	"Increasing the Accuracy and Improving the Data-Processing Mechanism in Clinical Trials"
Ghiassi	Manoochehr	OMIS	"Large-Scale Text Categorization with a Dynamic Artificial Neural Network Model"
Ramon	Guy	Physics	"Theoretical study of decoherence effects and quantum control of spin qubits in semiconductor quantum dots"
Shachter	Amy	Chemistry	"Porphyrin Research: Porphyrin Dimers and Micelles "
Sun	Xuhui (Jeff)	Center for Nanostructures	"Fabrication of carbon nanofiber via interconnect structures"
Tran	Nicholas	Mathematics & Computer Science	"Existence of Secure Watermarking Algorithms and Approximate One-way Functions"
Rahman, Mahmud	Timothy Healy	Electrical Engineering	"Photovoltaic Measurements Laboratory"
Shang	Weija	Computer Engineering	"Project I: Register Allocation and Instruction Scheduling; Project II: Visualization of Processes in Compiler Optimization"
Yamada	Toshishige	Center for Nanostructures	"Modeling of quantum capacitance and kinetic inductance in nanostructures"
Fraser	Barbara	Theatre	"Research and Interview for new untitled as yet play"
Fritz	Don	Art & Art History	"Seoul Korea / Santa Clara Art Exchange Exhibition"
Bell	Matt	Psychology	"Conditioned reinforcement and chain schedules"
Bezrukova	Katerina	Psychology	"Faultlines, Faults, and Feelings: Emotional Processes in Diverse Groups"
Fernandez	Marilyn	Sociology	"Dalits (Scheduled Castes) and the New Globalized Indian Information Technology Sector "
Gullette	Gregory	Anthropology	"Migration, remittances, and development: Interrogating community, gender, and investment among rural to urban migrants in Bangkok, Thailand"
Hayes	Robin	Ethnic Studies & Political Science	"A Diasporic Underground: African Liberation & Black Power"
Skowronek	Russell	Anthropology	"Copper on the Spanish Colonial Frontier"
Watts	Sean	Environmental Studies	"Undergraduate Science & Engineering Symposium"
Aoki	Katherine	Art & Art History	"Historical Makeovers: Beauty Consumerism Explored Through Humor and Historical Reference"
Chung	Wingyan	OMIS	"An Integrated Approach to Automatic Summarization of Online Customer Reviews"
Dong	Xiaojing	Marketing	"The Role of Free Sampling in Physician Prescription Behavior", "
Kevane	Michael	Economics	"Semester Study Abroad/Immersion in Burkina Faso"
Robinson	Laura	Sociology	"Digital Inequality, Culture, and Information Habitus: An Examination of Brazilian, Argentinean, and American Youth"
Van Shaack	Beth	Law	"Representing "Unlawful Combatants""
Baerwald	Jeffrey	Counseling Psychology	"Inter and Intra Modal Selective Attention Processes: Tactile, Auditory and Visual Attention Functioning"
Fern	Michael	Management	"Customer Value Creation in High Technology Firms"
Grainger	Jim	Biology	"Role of Hypoxia-Induced Genes on the Differentiation of Mesenchymal Stem Cells into Muscle, Bone and Fat Cells"
Kamas	Linda	Economics	"Can Social Preferences Explain Gender Differences in Economic Behavior?"
Kealhofer	Lisa	Anthropology	"Millet and the Development of Agriculture in Southeast Asia"
Kim	Yongtae	Accounting	"Do Socially Responsible Firms Behave Differently in Financial Reporting?: Evidence from Earnings Management and Real Activities Manipulation"
Li	Siqi	Accounting	"Mandatory Adoption of International Financial Reporting Standards (IFRS) and U.S. Mutual Fund Investment: Evidence from the European Union"
Li	Haidan	Accounting	"Equity Incentives for Outside Directors and Earnings Management"
Zarghamee, Homa	John Ifcher and	Economics	"Happiness and Present-Bias"
Bezanson	Michelle	Anthropology	"Bringing the lab into the field: kinematics during quadrupedal walking in Cebus capucinus."
Ellingson	Laura	Communication and Women's Studies	Writing for Publication/Performance Grant
