

## DeAnza College Transfer Guide

### COLLEGE OF ARTS & SCIENCES

Thank you for your interest in Santa Clara University! This guide has been designed to help make the course-planning process easier for students who wish to transfer into the College of Arts & Sciences at SCU.

Prospective transfer students please note the following prior to using this document:

- This guide represents the core (general education) curriculum Santa Clara University had in place for incoming freshmen students through Fall 2008. As of Fall 2009, SCU introduced a new core curriculum and consequently has designed new guides to assist transfer students with planning. ***Students planning to transfer into SCU for Fall 2010*** as a sophomore or a junior may still utilize the guide found on the following pages. ***Students planning to transfer in Fall 2011 and later*** need to refer to the guide designed for SCU's new core curriculum and should not use the document below for planning purposes.
- Oftentimes schools will cross-list a single course separately under different departments. This guide will individually list cross-listed courses for each department they are found in. It is a student's responsibility to notice whether or not a course is cross-listed as credit will only be issued one time from SCU.
- If a student takes an honors version of a course that is listed on this guide, SCU will accept that class as transferable.
- Math courses eligible for transfer to SCU to fulfill math requirements are listed on this guide. A Pre-Calculus course is eligible to receive general elective credit but will not satisfy SCU's core math requirement.
