Correctional Psychology  
Winter 2013  

Instructor: Robert L. Michels  
Office: Loyola 120 R  408/554-7874  
Office Hours: Monday – 4:00 – 5:30 PM and Thursday 2:00-4:00 PM and by Appointment  
Email: rmichels@scu.edu  

Course Description:  
The course will cover the principles and procedures of correctional psychology and correctional education, including current research on best practices. Discussion of pro-social development and skills, functional assessment and curriculum, correctional psychology, criminal justice, vocational programs, aggression reduction, prejudice reduction, life skills training, comprehensive systems, and treatment planning are included as well as an examination of therapeutic approaches and model programs. A review and examination of special populations with be covered and handling therapeutic management of disruptive, aggressive, noncompliant and assaultive behavior in the restive client. Understanding of safety, through skilled violence and crisis management, and the counselor roles and responsibilities in working with clients in life, social and vocational skills will be reviewed.  

Objectives:  

1. The student will understand and articulate case management, counseling and intervention models for delinquent, at-risk and non-conventional youth and adults.  

2. The student will understand and articulate the mission of therapeutic programs for special populations.  

3. The student will understand and articulate the characteristics, causes and strategies for counseling disruptive, aggressive, noncompliant, assaultive behavior in the resistant client.
4. The student will understand and articulate the principles and procedures for safety promotion, violence prevention and crisis management in the therapeutic relationship.

5. The student will understand and articulate counselor roles and responsibilities in special settings and with special clients. There will be a focus on addiction.

6. The student will understand and articulate the principles of functional assessment and counseling in life, social and vocational skills.

7. The student will understand and articulate the principles of processes of cognitive change in the correctional population.

8. The student will understand and articulate approaches to criminal behavior, lifestyle criminality and criminal career theory.

Course Requirements –

Class Meetings (20% of the grade) and the field trip is mandatory.

Final Examination (30% of the grade) is an examination, which must be written in ink on the test form or it may be a take-home final. The questions may include definitions, short essay, and brief case study. The questions will primarily address the readings, field trip and guest speakers.

Projects (30% of the grade) are applications of the materials used in class. Throughout the quarter you will be given short projects based upon the speakers and readings. Additionally, a typed write-up of your impression of the field trip to California Youth Authority (CYA) and how you would use what you have experienced in working with your clients is a required project.

Each student will be assigned at least one “special needs offender” project. This project will be presented in groups via a PowerPoint presentation. Groups and topics will be selected on the first night of class.

Participation (20% of the grade) in class, which must be lively, regular, informed and intelligent. It is recommended that you use PowerPoint. This may include written exercises in class. Participation should evidence careful reading of the assigned texts and their integration with previous material and discussions.

Required Texts:

Recommended Text/Resource Texts:

Course Activities and Requirements:

This quarter we will have the opportunity to meet with and learn from a variety of guest speakers who are experts in their respective fields. All of our speakers will focus on their work in the correctional field and are a valuable resource to your professional careers. Additionally, there will be eight group PowerPoint presentations by our class members covering topics that are limited in scope as presented in our text. Each group is to do additional research on the topic and then share their findings with the class.

The presentation topics to be covered are:

- Substance Abusers and Substance Abuse Programs
- Offenders with Communicable Diseases
- Early Childhood Offenders
- Mentally Disordered Offenders
- Juvenile Sex Offenders as Special Needs Offenders
- Adult Sex Offenders
- Female Offenders
- Restorative Justice

   Presentations on:
   • Substance Abusers and Substance Abuse Programs
   • Offenders with Communicable Diseases
   • Early Childhood Offenders
   • Mentally Disordered Offenders
   Final Examination

New APA Ethics Standard on Student Self-Disclosure.

The professional training philosophy of the Counseling Psychology Department is predicated on the notion that an effective counselor must be a whole person. Indeed, in the practice of counseling, it is the person of the counselor that is a major component of healing. As a counselor-in-training, then, self-reflection is a necessary and required part of the training that helps one better understand and empathize with his/her future clients' experience.

Such reflection is a significant component of one's personal and professional development as an effective and sensitive instrument of change. Thus, it is customary that in the CPSY Masters Program's classes at SCU, students are regularly assigned work that involves self-disclosure and personal study of the content of that self-disclosure. Students are expected to reflect on their past and present personal experiences in courses and program related activities, in oral and/or in written assignments.

We respect students' rights to confidentiality, and do not require that any particular or specific information be disclosed. Moreover, we do not evaluate students' progress in the program based on the disclosure of any specific information (except as mandated by ethical codes or law).

It is our experience that this philosophy and related formats in our classes provides a rich and superlative educational experience, involving more aspects of student experience than do standard lectures or written material which does not include the person of the therapist in training.

DISABILITY ACCOMMODATION POLICY:
To request academic accommodations for a disability, students must contact Disability Resources located in The Drahmann Center in Benson, room 214, (408) 554-4111; TTY (408) 554-5445. Students must provide documentation of a disability to Disability Resources prior to receiving accommodations.

ACADEMIC INTEGRITY

SCU is committed to a pursuit of truth and knowledge that requires both personal honesty and intellectual integrity as a fundamental to teaching, learning, scholarship, and service. Therefore, all members of the University community are expected to be honest in their academic endeavors, whether they are working independently or collaboratively, especially by distinguishing clearly between their own original work and ideas, and those of others, whether published or not.

A student who is guilty of a dishonest act in an examination, paper, or other work required for a course, or who assists others in such an act, may, at the discretion of the instructor, receive a grade of F for the course. A student found guilty of a dishonest act may be subject to sanctions up to and including dismissal from the University as a result of the student judicial process as described in the Community Handbook. Engaging in any form of academic dishonesty, such as plagiarism (e.g., copying work of another person, falsifying laboratory data, sabotaging the work of others), and other acts generally understood to be dishonest by faculty or students in an academic context subjects a student to disciplinary action.
