Mission and Goals of the Department of Education

Rooted in the Jesuit tradition at Santa Clara University, the mission of the Department of Education is to prepare professionals of competence, conscience, and compassion who will promote the common good as they transform lives, schools, and communities. Our core values of reflective practice, scholarship, diversity, ethical conduct, social justice, and collaboration guide both theory and practice.

Faculty, staff, and students in the Department of Education:

1. Make student learning our central focus
2. Engage continuously in reflective and scholarly practice
3. Value diversity
4. Become leaders who model ethical conduct and a commitment to social justice
5. Seek collaboration with others in reaching these goals

MS/SS Teaching Credential Program Learning Goals (PLGs)

The PLGs represent our commitment to individuals who earn their MS/SS credential at Santa Clara University. The MS/SS faculty focus on ensuring each student will begin their teaching career ready to:

1. Maximize learning for every student.
2. Teach for student understanding.
3. Make evidence-based instructional decisions informed by student assessment data.
4. Improve your practice through critical reflection and collaboration.
5. Create productive, supportive learning environments.
6. Apply ethical principles to your professional decision-making

The PLGs guide our program. Therefore, all MS/SS teaching credential program course objectives are cross-referenced with the PLGs. (A fully elaborated version of the MS/SS PLGs can be found in the Teacher Candidate Handbook, Preservice Pathway.)

Course Description

EDUC 221M Effective Teaching for Students with Disabilities provides multiple and single subject teaching credential candidates with an introduction to creating positive and effective, inclusive, instructional environments for all learners, including students with disabilities. This course introduces the candidates to a range of strategies for learning about their students’ background knowledge, experiences, and interests and for identifying their academic, language, and social skill levels. Focused on the use of effective, inclusive teaching practices that enable all students to be successful, the course develops candidates’ ability to plan and implement flexible, standards-based instruction that will enable every student to learn every day. This course includes a study of types of disabilities according to IDEA 2004 and California rules and regulations, and criteria for identification for special education services, as well as an examination of the types of services provided in response to student needs. Candidates examine the population of students included for special education services, the continuum of services available, and different models of service delivery.
This course will develop students’ knowledge of or skills with…

Assignment 1: Professional Conduct

TPEs: 1.4, 2.1, 2.3, 2.4, 2.5, 3.5, 3.6, 4.1, 4.2, 4.4, 4.5, 5.6, 5.8

DUE: Each class meeting    POINTS: 20 per class meeting

The professional conduct requirement includes the six dimensions described below.

1. Attendance.
   Attendance at all class meetings is a requirement of this course. For each class session you attend and participate in, 20 points will be entered for as part of your professional conduct grade.

   Each of you will be granted one Emergency Release (ER) for the course. Your ER permits you to miss class and incur only half the grade penalty (loss of 10 points instead of 20). To use your ER you must notify the instructor by email or phone BEFORE the class session you will be missing. Good reasons for using an ER are for medical issues and family demands.

   Students will be granted an excused absence to observe religious holidays that fall on our scheduled class day; please give the course instructor advance notice of these absences so that necessary accommodations can be made. Thank you.

2. Punctuality.
   Coming to class on time and ready to learn is a course expectation. Please sign in on the class attendance record when you arrive for class to receive credit for your on time arrival for class. Knowing that there are times when unexpected circumstances arise that may result in late arrival, please note this on the sign in sheet. Depending on the time of your arrival may impact whether or not you receive the full 20 points for your Professional Conduct grade.

3. Preparation.
   The quality of our class sessions and the depth of your learning depend directly on your preparation. Please be prepared for class based on the expectations outlined in the course syllabus and by the class norms.

4. Participation.
   This requirement includes but is not limited to (a) engaging actively in all discussions and activities (this includes making contributions, listening actively, and withholding contributions to leave space to allow other classmates to participate), (b) completing all in-class learning activities and the end of class “exit ticket” assessments at the end of each class session by responding to the survey.
5. Responsible use of technology.
While our class is in session, please engage in activity that is directly related to what is taking place in our classroom. Electronic devices may be used during class to support learning. Please note that:

There are times that you will be asked to close your laptop or put away some other form of technology during class; when/if this occurs, please respond quickly and without protest to avoid further disruption of the class’s learning.

I strongly encourage all of you to assist each other in meeting these expectations for technology use. If someone sitting near you is using technology in an inappropriate manner during class, it is your responsibility to remind that classmate to stop.

If you would like more detailed clarification about the expectations regarding appropriate and inappropriate in-class technology use, please feel free to contact me for further information.

6. Communication.
Email using our SCU email address will be our primary means of communication outside of class. You must check your SCU email and our course’s Camino site every day to ensure you maintain a connection with the course content, your classmates, and your instructors.

Your Professional Conduct grade will be determined by analysis of evidence gathered through my ongoing observation and documentation throughout each quarter. If I have reason to feel you are not meeting the expectations spelled out in this syllabus, I will contact you privately to discuss the issue, to clarify the expectations as needed, and to offer my support in helping you reach these expectations. If I do not contact you with a concern, you can assume your performance is satisfying the course requirements. However, if you would like specific feedback on your professional conduct, you are welcome to contact me any time and I will be glad to share my assessment with you.

Academic Integrity

Academic Integrity Pledge

The Academic Integrity pledge is an expression of the University’s commitment to fostering an understanding of -- and commitment to -- a culture of integrity at Santa Clara University. The Academic Integrity pledge, which applies to all students, states:

I am committed to being a person of integrity. I pledge, as a member of the Santa Clara University community, to abide by and uphold the standards of academic integrity contained in the Student Conduct Code.

Students are expected to uphold the principles of this pledge for all work in this class.

The University is committed to academic excellence and integrity. Students are expected to do their own work and to cite any sources they use according to the rules for citation in the 6th Edition of the Publication Manual of the American Psychological Association (APA, 2010). A student who is guilty of dishonest acts in an examination, paper, or other required work for a course, or who assists others in such acts, will receive a grade of F for the course. In addition, a student guilty of dishonest acts will be immediately dismissed from the University. Students that violate copyright laws, including those covering the copying of software programs, or who knowingly alter official academic records from this or any other institution, are subject to disciplinary action (SECP Graduate Bulletin, 2016-2017).

Additional Information

Disabilities Resources

If you have a disability for which accommodations may be required in this class, please contact Disabilities Resources, Benson 216, http://www.scu.edu/disabilities as soon as possible to discuss your needs and register for accommodations with the University. If you have already arranged accommodations through Disabilities Resources, please discuss them with me during my office hours. Students who have medical needs related to pregnancy may also be eligible for accommodations. While I am happy to assist you, I am unable to provide accommodations until I have received verification from Disabilities Resources. The Disabilities Resources office will work with students and faculty to arrange proctored exams for students whose accommodations include double time for exams and/or assisted technology. (Students with approved accommodations of time-and-a-half should talk with me as soon as possible). Disabilities Resources must be contacted in advance to schedule proctored examinations or to arrange other accommodations. The Disabilities Resources office would be grateful for advance notice of at least two weeks. For more information you may contact Disabilities Resources at 408-554-4109.
