**MARKKULA CENTER FOR APPLIED ETHICS****RECOMMENDATION FOR  
2019 - 2020 HEALTH CARE ETHICS INTERNSHIP (ELSJ 198)  
*(to be completed by recommender)***

Dear Recommender,

Thank you for taking the time to complete and submit a recommendation for a student applying to the Health Care Ethics Internship. This program is sponsored by the Markkula Center for Applied Ethics at Santa Clara University, in partnership with several local hospitals and other health care facilities. The Health Care Ethics Internship is a year-long internship program in clinical health care settings, where interns learn about day-to-day ethical issues and dilemmas from nurses, physicians, and other health care professionals. In addition to clinical rotations, there is a mandatory class component, where we draw upon the students' observations from their clinical rotations to illustrate and explore ethical principles, rules, conflicts, and nuances. Student learning is further supported by assigned readings in bioethics and regular writing assignments, including quarterly term papers.

***There are two components to this recommendation:***

- 1) Evaluation Grid***
- 2) Summary Statement***

Recommendations can be mailed or emailed directly to Ryvenna Lewis at the Ethics Center (see contact information below) OR returned to the applicant. If returning your recommendation to the applicant, recommendations must be in a sealed envelope, signed across the flap, by the recommender.

If you have any questions about the recommendation process, or the Health Care Ethics Internship, please do not hesitate to contact me.

Sincerely,

Ryvenna Lewis  
Health Care Ethics Internship Manager
