

## Approve/Deny Prerequisite Override Request

## Overview

This quick reference guide will cover how to review prerequisite override requests from students, and to render an approval or denial on these requests.

**NOTE**: Before starting your tasks in Workday Student, follow the set up procedures outlined in the *Getting Started* guide found under *Workday Training and Support* <u>here</u>.

## Process

1. When a student submits a request for a prerequisite override, it will be sent to the Workday inbox of the Instructor of the course for review, approval or denial.

2. After logging into Workday, access your **Workday inbox** by clicking on the inbox icon at the top right corner of the screen.

	Process History 3 moder app
	Approve, Send Back, Deny, Cancel

3. Click **Approve** to approve the request, allowing the student to register.

Click **Send Back** if the student made an error and needs to make changes.

Click **Deny** if you want to deny the request.

• If desired, you can leave a comment.

Click Cancel if you don't want to take action at this time.

## Approve/Deny Prerequisite Override Request

5. If approved or denied, the student will receive a notification in their Workday inbox. If approved, the student can enroll in the class.

**NOTE:** The student will not receive an email notification and your approval does not enroll the student into the course.
