Building on the 2016 book, *The End of Adam and Eve: Theology and the Science of Human Origins*, this talk will discuss these new scientific findings and what they suggest for Christian theology, centering on our need for redemption and our understanding of Jesus Christ as incarnate in this complex hominin lineage.

### **New Perspectives on Human Origins: Three Challenges for Christian Theology**

Following Thursday’s talk, continue the discussion of findings from *The End of Adam and Eve: Theology and the Science of Human Origins*.
