Accelerate your path towards a Masters Degree.
Open to all Undergraduate Majors.

4+1 is a program designed to provide Santa Clara University undergraduate students an opportunity to complete a Masters degree in as little as 10 months. During Senior year, students will enroll in selected graduate course(s) each quarter. If the students pass their classes with grades of B or better, they will be eligible to fast track their Masters degree the following year, reducing up to 2 quarters off the typical full-time program duration.

Qualified applicants will have their GMAT/GRE waived and will be eligible for conditional acceptance prior to the start of their Senior year.

SCU offers three programs to accelerate your path towards a Masters of Science Degree.
