EDUCATING CITIZENS AND LEADERS

WHO WILL BUILD A MORE HUMANE,

JUST, AND SUSTAINABLE WORLD

THE ACADEMIC TRADITION

Banners: There are seven banners, each representing a different area of study and modeled after the guild signs used in medieval Europe. Every medieval guild adopted a simple picture as its sign, usually the guild's product or the tool of its trade, to identify itself. Following in that tradition, each area of study is represented by a banner bearing an appropriate symbol: an open book symbolizes intellectual pursuits in the arts, humanities, and history; a flask represents study in the sciences; a gear wheel is the symbol of engineering; an abacus indicates the financial orientation of business; the scales of justice stand for law; interlinked hands symbolize education and counseling psychology; and the IHS seal of the cross represents the Society of Jesus.

The background colors of the banners are in accordance with traditional academic heraldry: white for arts and humanities, yellow for sciences, orange for engineering, drab (brown) for business, purple for law, light blue for education, and scarlet for theology.

Also on display are 28 banners, representing the Jesuit colleges and universities across the United States. The tall dori poles proudly wave the University's colors of red and white.

Seal: At the center of the stage is the University seal, matching the presidential medallion worn by the President and consisting of two circles. The outer circle displays the words "Santa Clara University" and the year "1851," when this institution was founded. The inner circle holds a sky of 13 stars, symbolic of the original American colonies, above the American eagle, which is perched upon a shield containing the Jesuit seal of the cross (IHS) and three broad-headed nails.

Attire: The colorful attire worn by the graduates, faculty, and officers of the University on the occasion of these commencement exercises has roots in medieval times. Dressed in cap and gown, the graduates and their professors form part of a long tradition that dates back to Europe's first universities: to Paris and Bologna, to Oxford and Salamanca.

The origins of the several parts of the academic garb are not readily known. Since medieval students enjoyed the status of clerics during their university years, it is most probable that their attire was fashioned after the clerical dress of the time. The gown seems to be an adaptation of the robe of the friar or priest, and the hood resembles the monk's or friar's cowl. The present-day mortarboard cap may have curiously evolved from the skullcap that protected the tonsured heads of students against the drafts of medieval classrooms.

Academic attire began to appear on U.S. campuses in the late 1890s. Since that time, its use has become customary for solemn university functions.

The Gown: Each degree has its own style. The bachelor's gown is a yoked, closed-front garment, with long, pointed sleeves. The master's gown is cut to be worn with open or closed front; its sleeves are long and are either open or closed, but slit just above the elbow to allow the forearm to protrude. The gown of the doctor is also worn open or closed and has full, bell-shaped sleeves. Only the doctor's gown is trimmed with velvet panels down the front and three velvet bars on each sleeve. While black velvet is the trimming for all doctors' gowns, other colors of velvet trimming identify the major area of study.

The Hood: At first, the hood seems to have been worn over the head and was attached to the gown. When the skullcap was introduced, the hood was retained but detached and worn much as it is today.

THE ACADEMIC TRADITION

Each degree (bachelor, master, doctor) has the right to a hood. It varies in length and, for the doctor's degree, also in pattern. The bachelor's hood is 3 feet long, the master's hood is 3.5 feet long, and the doctor's hood is 4 feet long with wide panels on either side.

The color or colors with which the hood is lined are those of the college or university granting the degree. For example, Santa Clara University has a parti-per hood with cardinal above white. The colored velvet binding or edging of the hood, in different widths for bachelor, master, or doctor, indicates the area of study within the university granting the degree: dark blue for philosophy (Ph.D.); light blue for education (Ed.D.); white for arts and letters (Litt.D.); golden yellow for sciences (Sc.D.); orange for engineering (Eng.D., DCE); purple for law (LL.D., DCL, J.D., JUD, JCD); drab (brown) for business (DBA, Ph.D.); scarlet for theology (S.T.D., D.D.).

The Cap: The mortarboard cap is the generally accepted style in the colleges and universities of the United States. Many European and Latin American institutions retain distinctive forms of academic headdress, such as the University of London's tam-o'-shanter cap and the University of Mexico's octangular biretta.

The Honor Cord: The gold honor cord is given to those undergraduate students who have an overall grade-point average of 3.50 or higher for cum laude, 3.70 or higher for magna cum laude, and 3.90 or higher for summa cum laude.

SANTA CLARA UNIVERSITY COMMENCEMENT SPEAKER

Kris D. Gutiérrez Ph.D.

Carol Liu Chair in the School of Education, University of California, Berkeley

Kris D. Gutiérrez, Ph.D., is a distinguished scholar at the University of California, Berkeley, where she holds the Carol Liu Chair in the School of Education and has served as both associate dean and faculty assistant to the vice chancellor for research. A world-renowned expert in learning sciences, literacy, and educational policy, her scholarship centers on how language, culture, and community shape student learning—with particular focus on the conditions under which students from nondominant communities thrive.

Gutiérrez is celebrated for bringing rigorous research out of the academy and into the communities that need it most. Over decades, she has built deep partnerships with immigrant and migrant families through programs such as Las Redes, a 15-year after-school initiative that embraced students' full linguistic repertoires as a strength, and El Pueblo Mágico, which ignited a passion for STEM learning in young students. She also founded the UCLA Migrant Student Leadership Program, supporting California youth from migrant farmworker backgrounds on pathways to academic and civic leadership.

Her research has been supported by the National Science Foundation, the Spencer Foundation, the Sloan Foundation, and the MacArthur Foundation's Connected Learning Research Network. A past president of the American Educational Research Association (AERA), she holds elected memberships in the National Academy of Education and the American Academy of Arts and Sciences, and is a fellow of the British Academy and the International Society of the Learning Sciences.

Gutiérrez's contributions to education have been recognized with an extraordinary record of honors, including AERA's Lifetime Achievement Award, the Oscar Causey Award for influence on the field of literacy, and AERA's highest honor: the Distinguished Contributions to Research in Education Award. She served on President Barack Obama's transition team and received a presidential appointment to the National Board of the Institute of Education Sciences, where she served as vice chair.

Dissertation: *A Unified Framework for Data-Efficient, Geometry-Aware, and Multimodal Deep Learning for Chest X-Ray Image Analysis*
Prior Degree: M.S. in Electrical Engineering, 2012
School: Islamic Azad University of Iran
Ph.D. Advisor: Dr. Nam Ling (Advisor), Dr. Xiang Li (Co-Advisor)

Yifei Pei
Dissertation: *Generative Models for Image Compression*
Prior Degree: M.S. in Computer Science and Engineering, 2020
School: Santa Clara University
Ph.D. Advisor: Dr. Nam Ling

Zhiyuan Peng
Dissertation: *Enhancing Search Systems with Large Language Models*
Prior Degree: M.S. in Computer Science and Engineering, 2020
School: Santa Clara University
Ph.D. Advisor: Dr. Yi Fang

Xiaoxiao Shang
Dissertation: *Fairness, Representation, and Retrievability in AI Information Systems*
Prior Degree: Master of Computer Science and Engineering, 2018
School: Santa Clara University
Ph.D. Advisor: Dr. Yi Fang

Juliana Shihadeh
Dissertation: *Brilliance Bias in Generative AI*
Prior Degree: M.S. in Computer Science and Engineering, 2021
School: Santa Clara University
Ph.D. Advisor: Dr. Margareta Ackerman

Zhongpeng Zhang
Dissertation: *Learned Hybrid Image Coding: From Machine Tasks to Pixel Fidelity*
Prior Degree: Master of Science, Computer Science, 2018
School: Viterbi School of Engineering, University of Southern California
Ph.D. Advisor: Dr. Ying Liu

Electrical and Computer Engineering

Krishna Chaitanya Kodur
Dissertation: *Multitasking Intelligent Assistant Robot*
Prior Degree: Master of Computer Science, 2020
School: University of Colorado, Boulder
Ph.D. Advisor: Dr. Maria Kyrarini
