This is another customizable view of what is scheduled in a specific location during a specified week.

You can select options for:

- Blackouts - whether or not you'd like to see any blackout periods in the location.
- Additional Time - whether or not you see setup, pre-, post, and takedown times.
- The dates and number of weeks that you would like to view.

The screenshot shows a web interface for scheduling in a classroom named '101 - Classroom'. The interface includes a search bar, a 'Recently Viewed' dropdown, and a 'Help' icon. Below the header, there are tabs for 'Availability (Daily)', 'Availability (Weekly)', and 'Calendar'. The 'Calendar' tab is selected. A circular orange highlight is placed over the 'Show Blackouts' checkbox, which is checked. Other checkboxes include 'Display Additional Time' (checked) and 'Related Locations' (checked). The date range is set to 'Sun Jan 18 2026 - Sat Jan 24 2026' with 'Weeks: 1' displayed. The calendar grid shows the following schedule:
