

Group Project Video/ PowerPoint Checklist

This checklist is intended to help you avoid omitting certain basic elements from the final version of your project. It does not guarantee a particular grade, and the checklist may not be exhaustive. For more information, see the Project Instructions and the Project Suggestions & Timeline.

- _____ There is a title slide/image with the course title, quarter and year, the group number (1,2,3), and first and last names of all team members.
- _____ Complete information is given for the location of each and every sign documented (street address, etc.)
- _____ The organization of the data follows a logical pattern (e.g. in order of location on the street, by type of business, by characteristics of the signage, etc.)
- _____ The analysis of the data is concise, yet detailed and fully explained.
- _____ The presentation is not done in Google Slides.
- _____ The presentation or video is 5-7 minutes in length.
- _____ The narration is done entirely in Spanish.
- _____ All group members are heard for an approximately equal amount of time in the narration.
- _____ The presentation/video is original. "Original" means that it consists entirely of data collected exclusively for this project by group members and only by group members. It has not been nor is to be submitted for another course, whether past, present, or future.
- _____ The narration was made exclusively for this project by group members and only by group members. It has not been nor is to be submitted for another course, whether past, present, or future.
- _____ The presentation is comprehensible to and engaging for the viewer. None of the narrators are speaking in a monotone. The narration does not sound like someone reading word-for-word. The narration has not been machine-translated and then memorized as a script.
