

Please indicate your level of qualification/interest in TAing the following courses. It is okay to leave blank for some courses, but you must identify at least 3 courses for each of the first two categories and at least 6 for the last category. For example, even if you feel you are qualified to TA any course, then choose the 6 you would be least comfortable TAing in the last column. Similarly, if you are interested in TAing any course that you're qualified for (say 7), classify the 3 of the 7 you are least interested in as qualified, but less interested. You may obtain further description of the courses at <https://www.scu.edu/bulletin/undergraduate/chapter-5/MechanicalEngineering.html>. While we do our best to accommodate your preferences, this cannot be guaranteed.

|                  | Interested AND Qualified | Qualified, but less interested | Not particularly qualified. |
|------------------|--------------------------|--------------------------------|-----------------------------|
| MECH 10L/12L     |                          |                                |                             |
| MECH 15/L        |                          |                                |                             |
| MECH 45/L        |                          |                                |                             |
| MECH 102         |                          |                                |                             |
| MECH 121         |                          |                                |                             |
| MECH 122/L       |                          |                                |                             |
| MECH 123/L       |                          |                                |                             |
| MECH 140         |                          |                                |                             |
| MECH 141/L       |                          |                                |                             |
| MECH 142/L       |                          |                                |                             |
| MECH 143/L       |                          |                                |                             |
| MECH 144/L       |                          |                                |                             |
| MECH 151/L       |                          |                                |                             |
| MECH 156/L       |                          |                                |                             |
| MECH 160/L       |                          |                                |                             |
| MECH 101L        |                          |                                |                             |
| MECH 114/115     |                          |                                |                             |
| MECH 194/195/196 |                          |                                |                             |
| CENG 43/L        |                          |                                |                             |
